PATRIOTIC CALL.

HONGKONG STEEL FOUNDRY COMPANY,

PROSPECTUS

Inviting public subscription for 85,000 shares at par (\$10 each), upon an increase of the Capital of the Company.

REPORT AND STATEMENT OF ACCOUNTS FOR 1916-17.

T is desired and a resolution for that purpose has been passed, to increase the Capital of the Company to \$1,000,000 by the issue of new shares, for the purpose of extending the business which is firmly believed will, if so extended, not only prove exceedingly profitable to all interested in the Company, but will also supply a want to local concerns.

The Capital of the Company is now \$1,000,000 of which only \$78,080 has been paid up and, on this the Company last year made a net profit of \$19,817 and paid a dividend of 10 per cent, at the end of the present financial year. It is anticipated that doubling the Capital will at least treble the profit; and, should this anticipation be realized, the Company could pay at least a steady Twenty per cent.

Steel Castings are needed for numerous purposes by all Railway

contractors, Engineering and Dock Companies, everywhere in China, and by many small manufacturers. At present a large portion of the Steel products which this Company is able to manufacture is obtained from abroad-at probably great expense-in consequence of the very limited capacity of this Company to carry out orders received. With an increased Capital, enabling more furnaces to be erected, and mere labour employed, this Company would then be in a position to supply most of, if not all, the needs for steel castings in this part of the world; for, with the experience now acquired by the General Managers, and by their present head workmen, there should be no difficulty whatsoever in most satisfactorily fulfilling such requirements..
"It is much desired that sufficient additional capital be subscribed."

beyond that which is required for the further development of the Steel, Casting department, in order to enable a plant to be obtained, and set up, for the purpose of rolling Steel Ingots into material for Engineering. Dock, and Building requirements; for which material there is now a great demand.

It is "therefore trusted" that many persons in the Colony will be found ready to subscribe towards the increased capital desired, both for their own benefit, and for that of the community generally.

The General Managers are ready and willing to enter into any reasonable agreement desired by the Company to continue their services for a lengthy period. Also, if desired by the Company, they are fully, prepared to transfer the centrol to a Board of Directors, . comprised of such persons who are in a position to introduce business, as the Company thinks advisable.

The minimum subscription for the new shares now offered to the public, upon which the General Managers may proceed to allotment, is \$200,000. MR. C. BERNARD BROWN of the firm of Messrs, Linstead & Davis,

Hongkong, is the Auditor of the Company. A copy of this prospectus has been duly filed for registration with the Registrar of Companies.

Application for Shares should be made to the Company's Bankers, or the office - the General Managers, where forms will be supplied.

AN INSTRUCTION BY THE MINISTRY OF THE INTERIOR.

_The following telegram was recently Chinese marine hawker was charged sent by the Ministry of Interior to the with the unlawful possession of a piece Tu Chuns, Governors and other local, chief officials instructing them to warn the people to refrain from committing irresponsible acts against enemy subjects resident in the different parts of the soap" once a month, which weighted

By a proclamation of the President. this country has declared war on Germany and Austria, with whom this country is now at war. The proclamation further declares that the entry of this country into the war is chiefly inspired by the desire that in so doing it will help hastening the conclusion of peace notwithstanding the declaration of war against the Central Powers, this country harbours no spite or animosity against the subjects of these two countries resident in this country.

It should be remembered that since the severance of diplomatic relations with Germany, the German residents in this country have been allowed to contheir avocations as usual. We entertain no spite or prejudice against them as we fully realise that we are at war with their Government but not" with the subjects individually. This fact i obvious to all the people of the world.

Now that the friendly relations between Germany and Austria on the one side and this country on the other, have been broken and for purposes of national exigencies, the Government has promulgated a set of regulations governing 100.00 | the residence of enemy subjects in this country. In spite of the various 50.00 restrictions imposed, the life, property 50.00 and reputation of the enemy subjects. are still given adequate protection by the Government in accordance with the customary practices recognised by International Law. Let the people 25.00' understand that the entry of this 25.00 country into the war is to fight 25.00 for the principle of humanity to mankind. Being inspired by this ideal, our action towards the enemy subjects should be just and righteous. The enemy subjects who continue to reside in 10.00 this country should be treated by the 10.00 public with due respect. No insulting 10.00 words should be uttered nor rude and 10.00 unjustifiable acts committed against the 5.00 enemy subjects by the people, because of 5.00 prejudicial feeling against the enemy countries. The status of a country among the comity of nations is generally determined by the behaviour of its people. The dockgate, to which reference has sometimes been made, is, at hombarding range, a mere speck, on which a fortune might be wasted in shells. The port presents hardly any target except the water which it holds, and in the circumstances strate it. Bruges is quite another proposition. It is connected with Zeehrugger by a canal about 61 miles long, and it is in the ample water space at Bruges that the enemy keeps his destroyers and his submarines, the latter being in bombproof shelters. The enemy has had sufficient wisdom also to put his aerodromes, well away from the rea coast. Now a British squadron, which has necessarily to stand out some distance from the shore at Zeebrugge, with its sandbanks, minefields and coast guns, cannot reach the vital spot—Bruges barbour and the surrounding district. If those two points are kept in mind there will be a clearer perception of the situation, which is really one calling for absence of troops with heavy guns, the airmen, with splendid skill and enterprise, have been endeavouring to fulfil the mission which really belongs to a military force-namely, the bombardment of this Manchester of Belgium. and the driving of the destroyers and submarines out to sea, there to be dealt with by our Naval forces, in the manner illustrated by Commodore Tyrwhitt the

LIFE WITHOUT HEALTH IS LIVING DEATH.

The latest discovery of modern times, is without equal in all cases of defective nerve and brain power, whether induced by worry, overwork, dissipation, or other influences. Sleeplessness, palpitation, defective circulation, nervous dypepsis, tic or neuralgia, low spirits, mental and bodily prostration, want of confidence, general debility, premature decay or deficiency of the vital forces, loss of vitality, harassing dreams, restlessness that can settle to nothing, irritability of temper, female complaints, hysteria, backache, bearing down sensations, wasting discuses, consumption, night sweats, muddy, high-coloured water, ite, are all so many different phases of brain and nerve wreckage and enhancion, the cause of by far the greater portion of the misery, ill-health and despondency by which we are confronted on every hand, that can only be successfully combated by the use of this wonderful and highly scientific preparation. Bracing up the system generally, it gives tone to the enhanced nerves, arrests all weakening, wasting discharges, restores the failing energies, and imparts new life and vigour to those who had so recently seemed played out, used up and valueless.

HOUSE OF WINDSOR.

THE KING OF ENGLAND'S NEW FAMILY NAME.

REAT-GREAT-GRANDSON, "WIR." WINDSOR,

The Proclamation signed by his Majesty

By the KING. A PROCLAMATION.

Declaring that the Name of Windsor-is to be Borne by His Royal House and Family and Balinquishing the Use of All German Titles and Dignities. George R.L.

Whereas We, having taken into consideration the Name and Title of Our Royal House and Family, have determined and Fanily of Windsor And whereas We have further determined

for Ourselves and for and on behalf of descendants of Our Grandmother Oneen Victoria of blessed and glorious memory: to relinquish; and discontinue the use of all German Titles and Dignities;

determinations in Our Privy Council Now, therefore, Wa, out not Our Royal Will and Authority; do hereby declare and announce that as from the date of this Our Royal Proclamation Our House and Family shall be styled and known us the House and Family of Windsor. and that all the descendants in the male" line of Our, said Grandmother Queen Victoria who are subjects of these Realms, other "than female have inarried, shall bear the said Name of Windson; and

aunomace that We for Ourselves and for and on behalf of Our descendants and all other the descendants of Our said Grandmother Queen Victoris who are subjects, of these Realms, relinquish and enjoin the discontinuance of the use of the Degrees, Styles, Dignities; Titles and Honours of Dukes an Duchesses of Saxony and Princes and Princesses of Saxe-Cohnry and Gotha and all other German Degrees, Styles Dignities, Titles, Honours and Appellations to Us or to them heretofore belonging or appertaining.

WHAT THE CHANGE MEANS;

'Henceforth the reigning dynasty Great Britain and Ireland will cease to b i branch, and the most exalted branch of the House of Saxe-Coburg-Gotha.

The Royal dynasty became that Saxe-Coburg-Gotha with the accession King Edward VII., whose father, Prince Consort, was Prince Albert Saxe-Coburg-Gotha. In the 19th century this almost obscure German Ducal family had attained an extraordinary position umong the reigning Houses of Europe. Its advancement it owed very largely to the personal qualities and great ability of Queen Victoria's uncle, King Leopol I. of Belgium, and its greatest achievement was undoubtedly the marriage Prince Albert to our late Queen. To the same House belong the Royal dynasties of Belgium and Bulgaria, and the deposed

Hoyal dynasty of Portugal. -But the change goes further than the foundation of a new Windsor dynasty Not only is the Royal house to be styled "the House of Windsor," but the family surname becomes Windsor.

As the title of Prince and Princess i henceforth limited to the children and grandchildren of the Sovereign it follows that a great-great-grandson of a British supplies. Blonarch will be plain "Mr. Windsor. His great-grandsons, too, will, be conmoners, but will hear the courtesy title of Lord - Windsor, it we assume that the custom still prevails of creating the Sovereign's sons dukes.

Windsor is certainly a good choice of name. Even before the Conquest the King, had a Royal hunting lodge at Windsor. The first two Henries and John lived in the Castle, and Edward III. was born there. It was used by the and through the nineteenth century

Tudors as one of their favourite Palaces was regarded more or less as the headquarters of the Royal Family. The British Royal House has in the past home various names that might have been revived with advantage Plantagenet, York, Lancaster, Tudor, Stewart D'Este (Queen Anne), and Guelf-but for historical and other reasons it was

Impossible that any of them should b revived for the present dynasty. Windso as a territorial title, however, may b likened to Lancaster and York, and-the main thing—is entirely English an native in history and associations.-"The

THE WAR-WORN KAISER.

GRIM CONTRAST IN FILMS.

The Kaiser-Before and After, ought really to we the title of the striking series of captured German and Austrian Propaganda films now being shown at the Scala Theatre, says the 'Daily Mail." Nover has the change in that prime actor in the tragedy of to-day been so dramatically shown as it is it these pictures.

We see him in Vienns in the early days of the war, ebullient, effusive, gesticulating, laughing, a sense of coming triumph cozing out of him as it were He is posing for the camera the whole time as the world's greatest hero, though never by a single side glance does betray the fact that he knows the camera is recording his every movement.

Then another film, taken many months Inter on the Russian front, shows us the other Kalser, the war-weary, aged, and half-broken figure. Gone are the gestures and the hearty, slaps on the shoulder, gone the smile and the merry word, gone the easy, bounding guit,

He descends from the motor-ear slowly. Mr and Mrs HammesMr E. M. Sleigh He walks heavily. He stands stolidly staring straight into the camera, as though he had forgotten what he had to do post. With cruel persistence the German cinema man continued to turn his handle, fixing indelibly, for all the world to see, the ghantly tragedy of man s soul

There is much of interest in the rest of these films showing the life behind the German and Austrian lines.

TYPHOON SIGNALS.

New Local and Non-Local Storm OFFICIAL NIGHTS IN SEPTEMBER Particulars of outgoing and incoming Signal Codes were introduced at Hongkong on 1st July, 1917, in place. of the old Local Code, and the China dard Time at which Official Night end Coast Code.

The principal change in the Local subjects in China, Siam, Liberia, Portu-Code is that the new signals will show the direction from which the gale is expected, whereas the old signals showed the position of the typhoon. The latter will be indicated, as heretofore, by the Non-Local Signals. The new Local Code is given below :--

> DAY SIGNALS. 1-Red cone, point upward, will mean a typhoone exists which may possibly cause a gale at Hongkong within 24 hours.

> 2-Black come point upward-Gale expected from the North (N.W. to N.E.);

3-Black cone point downward-Gale expected from the South (S.E. to S.W.);

4-Black damm-Gale expected from the East (N.E to S.E.); 5-Black ball-Gale expected from

the West (N.W. to S.W.) 6-Two black cones, top one point down, bottom one point up,-Gale expected to increase.

7-Black cross-Wind of typhoon force expected (any direction). Signal No. 7 will be accompanied by

three explosive bombs, fired at intervals of 10 seconds at the Water Police 9.00 A.M. Station and repeated at the Harbour The signals will be lowered when it

is considered that all danger is over. The Day Signals will be displayed at the masthead of the storm signal mast on Blackhead Hill, the Harbour Office, H.M.S. Tamar, Green Island signal mast, the flagstaff on the premises of the 1.30 P.M. Hongkong and Kowloon Wharf and

Godown Company at Kowloon, the flagstaff on the premises of the Standard Oil "Company at Lai-chi-kok, and the Tung9.30 P.M. 9.30 P.M. 9. P.M. flagstaff near the Field Officer's Quarters' Shek Ki 9.30 P.M 9.30 P.M. 9.30 P.M. at Lyemun.

HONGKONG TIDES.

The tide-table given below has been compiled at the National Almanac Office in London from the result of the analysis of observations taken by means of an Water Police Basin at Taim Sha Tsui during the years 87-8-9.

The zero of the table corresponds with

their trade cards for £1, or larger adver- the zero of the sounding in the Allmiralty Chart, which has been found to be 4 feet 3 inches below mean sea level. To obtain the depth of water on the tide gauge at the Victoria Naval Yard add 3 feet 4 inches, and on the gange at Lamont Dock, Aberdeen, add 10 feet of the typhoon, or for some other reason,

4 inches to the height given in the table.
